Mohammed Zain A

Robotics Engineer | Product Builder

mdzainoct@gmail.com +91 8310704488 linkedin.com/in/zain-a-portz/ instagram.com/zainxportz/ Chennai, Tamil Nadu

PROFILE

I am a Third Year Computer Science Engineering student specializing in AI & Robotics, with hands-on experience in robotics research and development , hardware product development, e-commerce and startup operations. A curious and fast learner, who enjoys moving from ideas and research to working protoypes and real world execution. Currently building products and projects through ADB Labs while working across engineering, business development and digital commerce.

EDUCATION

Sathyabama Institute of Science and Technology — Chennai, Tamil Nadu
B.E. Computer Science Engineering with Specialization in AI & Robotics — 2024 – 2028
Cumulative GPA: 8.14/10

Primrose Schools — Chennai, Tamil Nadu
10th Grade: 88 Percent — 2020 – 2024
12th Grade: 80 Percent

WORK EXPERIENCE

ADB Labs & Orson Daily — Chennai, Tamil Nadu
Co-Founder & CEO — September 2026 - Present

- Working on robotics, clean-energy hardware, battery systems and R&D projects.
- Developed power-station, battery-pack and power-electronics prototypes.
- Worked across product development, engineering and prototyping.
- Worked on Branding and Sales
- Launched two products and wroked on distribtuion, sales pipeline and funnel

Renko Labs — Chennai, Tamil Nadu
Business Strategy & Systems — December 2025 - August 2026

- Worked on business strategy, digital marketing, automation and growth systems.
- Contributed to marketplace, content and business operations.

KAG India — Chennai, Tamil Nadu
Marketplace Operations — July 2026 - September 2026

- Managed product listings, catalogue development, pricing analysis and competitor research.
- Worked on product imagery, titles/descriptions and marketplace operations.

Scaler School of Technology — Bangalore, Karnataka
Innovation Intern — May 2024 - June 2024

- Worked on creative strategy, personal branding and content creation for education.
- Gained practical exposure on startup development and entrepreneurship
- Worked on web development projects and chrome plugin development using AI tools.

SELECTED PROJECTS

AI-Driven Collaborative Robotics

- Developed a robotics pipeline combining scene reasoning, inverse kinematics and physical execution.
- Worked on a closed-loop manipulation system for a 7-DOF KUKA iiwa arm in simulation

Rex - Quadruped Robot

- Designing and developing a Spot-inspired quadruped platform.
- Working on autonomous navigation, locomotion and control.

RoboSub

- Underwater robotics project focused on mechanical design, sealing, propulsion and control for underwater thrash cleaning.

Robot Soccer Bot

- Designed and built a functional robot soccer bot.
- Worked across design, mechanics, electronics and control.

Smart UPS / Automatic Inverter

- Built an automatic smart inverter/UPS prototype.
- Focused on intelligent switching and reliable power backup.

Air Cooler

- Designed and built working air-cooler prototypes.
- Explored airflow and evarapotative cooling, thermal design and cost-effective fabrication.

TECHNICAL SKILLS

- **Robotics:** PyBullet, Gazeebo, Rviz, Inverse Kinematics, Control Systems, ROS2, IOT, Hardware.
- **Programming**: Python, C, Java
- **Hardware & Electronics:** STM32, BMS, Power Electronics, Embedded Systems, PCB Design (KiCad)
- **CAD & Design:** SolidWorks, Fusion 360, AutoCAD, Blender, 3D Printing
- **Business & Marketing:** Marketplace Operations, Digital Marketing, Meta Ads, Business Intelligence

LEADERSHIP & COMMUNICATION

- 10+ technical, entrepreneurship and public presentations and demonstrations
- Organized and hosted college events
- Team leadership and project coordination
- Strong communication and problem-solving skills

CERTIFICATIONS

- ROBO AI - 6 week Industrial training program (My Equation).
- Microsoft Power BI
