PROFESSIONAL SUMMARY

Second-year Computer Science Engineering student specializing in Artificial Intelligence and Machine Learning at Sathyabama Institute of Science and Technology, with hands-on experience in Python, computer vision, and AI-based project development. Built practical projects in machine learning, OpenCV, Streamlit, and software development, with active participation in hackathons and technical learning programs. Eager to apply problem-solving and model-building skills to real-world internships and projects.

INTERNSHIPS

Intern, *INDIAN SPACE LAB* 17/06/2026 – 06/07/2026

- Completed a summer internship and technical training program conducted by Indian Space Lab.
- Gained practical exposure through structured technical training and hands-on learning in a professional program setting.

EDUCATION

B.E. Computer Science and Engineering(AIML) 2025 – 2029 | Chennai
Sathyabama Institute of Science and Technology, Chennai

Higher Secondary Education, *Shiksha Public School, Chennai* 2025 | Chennai

SKILLS

PYTHON

MACHINE LEARNING

DEEP LEARNING

ARTIFICIAL INTELLIGENCE

COMPUTER VISION

OPENCV

YOLOV8 / YOLOV11

MODEL TRAINING AND EVALUATION

PROBLEM SOLVING

PROJECT DEVELOPMENT

PROJECTS

Bird Detection (YOLOv8/YOLOv11), *BIRD DETECTION SYSTEM USING YOLOV8 & YOLOV11* 2026
ROLE: COMPUTER VISION / ML DEVELOPER

- Trained YOLOv8 and YOLOv11 models for real-time bird detection, focusing on accurate localization and classification in varying backgrounds.
- Prepared custom datasets, performed annotation and augmentation, and evaluated model performance to compare architectures for deployment in IoT-based safety systems.

Sign Language Detection, *SIGN LANGUAGE GESTURE RECOGNITION (IN PROGRESS)* 2026
ROLE: COMPUTER VISION / DEEP LEARNING DEVELOPER

- Designed a sign language detection pipeline using deep learning and computer vision to translate hand gestures into text or speech.
- Implementing data collection and model training using Python and OpenCV; currently iterating on model architecture and dataset quality to improve accuracy and robustness.

TECHNICAL INTERESTS

- Artificial Intelligence
- Deep Learning
- Computer Vision
- Machine Learning
- Model Development
- Image Processing
