Location: Chennai, Tamil Nadu

EDUCATION

Sathyabama Institute of Science and Technology

Chennai, Tamil Nadu

B.E. Computer Science and Engineering — Data Science

2nd Year | CGPA: 9.0/10

TECHNICAL SKILLS

- Programming: C++, Python, Java (basic)
- Core strengths: Communication, teamwork, collaboration
- Interest areas: Data Science, AI, Robotics, Drone Technology

LEADERSHIP & ACTIVITIES

- Student Ambassador, AICTE IDEA Lab, Sathyabama Institute of Science and Technology

TRAINING & CERTIFICATIONS

- Drone Technology Internship — India Space Lab

PROFESSIONAL PROFILE

Second-year B.E. Computer Science and Engineering (Data Science) student at Sathyabama Institute of Science and Technology with a CGPA of 9.0/10. Interested in applying programming fundamentals to practical projects across robotics, AI, and data-driven systems. Brings strong communication skills, a collaborative approach, and exposure to hands-on technical environments through project work, internship experience, and student leadership.

PROJECTS

Orzo Robotic Dog

A robotics project focused on the development of a robotic dog. Add the specific features you worked on, such as movement, sensors, voice interaction, computer vision, or control systems.

Blood Separation and Diagnosis System

A project aimed at supporting blood-component separation and diagnostic workflows. Add the operating principle, components used, and the specific problem your prototype is designed to address.

INTERNSHIP EXPERIENCE

Intern — ADB Labs

Currently working as an intern. Add your team, responsibilities, tools used, and key contributions.

Intern — Orson Daily

Currently working as an intern. Add your role, project or department, responsibilities, and key contributions.

ADDITIONAL EXPERIENCE

Drone Technology Intern — India Space Lab

Completed internship exposure in drone technology. Add the duration, practical activities, and any tools or platforms used.
